10 Secrets to Upgrade your Social Skills for Success

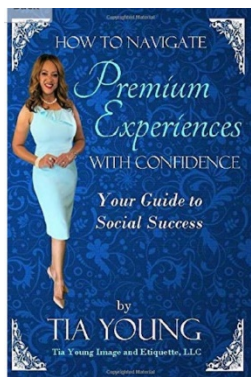

1. Dress like where you are going and not where you are with clothes that fit just right; Don't wear anything too tight, or loose and stick to solid colors.
2. No matter how educated you are, if you are rude and disrespectful, you will not get too far.
3. Limit distractions, such as cell phones, by turning the ringer off, and be present.
4. Greet people you meet with their name, a handshake, and a smile.
5. Be aware of your body language. Do not cross your arms as that will make it seem as though you are bored or do not want to be there.
6. If you are attending a meeting, bring paper and a pen to take notes.
7. When combining meals and business, wait for the host to initiate the starting of the meal. Mirror what the host does. Do not season your food prior to tasting it first and remember, cut one bite at a time.
8. Do not order messy foods in a business setting or drink too much.
9. Always say thank you, verbally and show appreciation with a handwritten note.
10. Common courtesy never goes out of style, such as, please, thank you, you're welcome, just to name a few.
